

Girls! Lots of Beautiful Hair

25 cent bottle of "Danderine" makes hair thick, glossy and wavy

Removes all dandruff, stops itching scalp and falling hair.

To be possessed of a head of heavy beautiful hair, soft, lustrous, fluffy, wavy, and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair, and lots of it. Just get a 25 cent bottle of Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, softness, and an incomparable gloss and luster, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine, in, we believe, the only sure hair grower, destroyer of dandruff, and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, wash it with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy, and beautiful in just a few moments—a delightful surprise awaits everyone who tries this—Advt.

CALL FOR SMOKES HEARD FROM TENTS IN FRENCH RAINS

Undoubtedly it is raining somewhere in France today, and an American soldier is sitting in his tent pinning for a smoke of real American tobacco.

Even if he is fortunate enough to buy tobacco in France, it is not like home tobacco to him, but an unsatisfactory substitute. To him 25 cents worth of American tobacco is worth many times the amount the contributor gives for it.

Times Fund to Help.

The Times Tobacco Fund is going to help that soldier.

One woman who has been a regular weekly contributor wrote to The Times today that the only regrettable feature in connection with contributing to such a worthy fund is that her weekly donations can't be a hundred times greater. She has inclosed 50 cents per week since the campaign for smokes started—enough to keep two soldiers happy at least a part of the time, through thinking that their interest is also the interest of those left behind.

Another thoughtful contributor, whose donation of \$10 will make happy the hearts of forty American soldiers, is Harry S. Fischer, a jeweler, of 438 Ninth street northwest.

You'll Get Soldier's Card.

Remember, for every 25 cents you contribute a post card will be inclosed in the package of tobacco sent to the soldier, self-addressed. It will come back to you as a voice from the trenches. What an interesting collection a group of such cards will be after the war!

Contributions thus far received to The Washington Times Tobacco Fund include:

Previously acknowledged.....\$2,828.44
Harry S. Fischer, 438 Ninth street northwest.....10.00
Miss Adria Hart......50
Mrs. J. M. Curtis, 81 Pearl street, Freeport, L. I......25
Total.....2,839.19

HOSPITAL WILL HOLD CARNIVAL FOR NEEDS

An indoor carnival for the benefit of the Washington Eye, Ear and Throat Hospital is to be held at the Arcade from October 5 to 12, inclusive. The new home of the hospital at 2517 Pennsylvania avenue is nearing completion and will be ready for occupancy the latter part of next month. The proceeds of the carnival are to be used in furnishing it.

The carnival is to be open both afternoons and evenings, and from 2 to 4 o'clock card parties will be held, and a night dancing will be the feature. Besides booths, a country store is to be an attraction. William Clark Taylor is general chairman of the carnival committee.

"Somewhere In France" Without a Smoke

Do you know what it means to a soldier at the end of a hard day's work—without a smoke? You remember how often "at home" you were stranded, but think of your soldier friend at the front—what a "smoke" would mean to him. Thousands of our boys are "somewhere in France" without their favorite smoke—they are fighting for you. Won't you contribute 25c to supply your soldier friend with a week's supply of smokes?

The Washington Times Tobacco Fund

Has been started to supply our boys with their favorite smoke. Will you help to make it a success? This has been endorsed by the Government. Through the efforts of this paper, arrangements have been made with the American Tobacco Company to send 45c worth of tobacco for 25c.

HERE IS WHAT THEY WILL GET:—

2 packages of Lucky Strike Cigarettes - - - - - Retail at 20c
3 packs of Bull Durham Cigarettes - - - - - Retail at 15c
3 books of Bull Durham Cigarette Papers, - - - - -
1 tin of Tuxedo Tobacco - - - - - Retail at 10c
4 books of Tuxedo Cigarette Papers - - - - - 45c

A return post card is inclosed in each package, so that every contributor will receive a personal acknowledgment of his gift. You will treasure this message from the trenches. Everybody wants to give a little. Will you help make it a success by doing your bit?

Contribute! Organize your club, your church, your office, your bureau, and give the boys just a little comfort—their favorite smoke.

MERCHANTS TURN TO TRUCKS TO GET NEEDED SUPPLIES

Automobile truck routes and steamship lines may be utilized to get merchandise both to and from Washington within the near future, unless rail transportation facilities solve the present freight congestion throughout the country.

This opinion was expressed today by two prominent Washington business men, who say that traffic conditions that are tying up shipments to and from Washington are blocking shipments in all parts of the country through embargoes or delay.

C. A. Sprawl, advertising manager for Hecht & Company, said that the firm was making use of automobile trucks to haul merchandise from New York and Baltimore to Washington. Since the war and since the Government placed the embargo on freight, W. B. Moses & Sons have been making use of steamboats in connection with partial railroad deliveries.

"We find it very difficult," said Edward McGarry, manager of W. B. Moses & Sons, "to receive goods from Philadelphia."

LIBERTY LOAN WOMEN OPEN BUSINESS SESSION

Members of the Women's Liberty Loan Committee got down to business this morning at the second session of their conference in the Pan-American building. Reports are being made of the work accomplished and discussion of plans for the second loan, which has just been announced are to follow.

The women will be entertained at luncheon at the headquarters of the American National Woman Suffrage organization today. Secretary of War Baker, Dr. Anna Howard Shaw, and Mrs. George Bass will speak at the afternoon session. Senator Smoot, Senator Gerry, and Congressman W. T. Rainey will tell the delegates of the methods of financing the great war.

Mrs. McAdoo will give a reception for the delegates at her home at 3:30 o'clock this afternoon.

WATER GIVES UP BODY OF "WALLINGFORD"

STOCKHOLM, Sept. 28.—Discovery of the body of Einar Lundstrom, with a bullet in his head, in the water near the Gothenburg Yacht Club has brought to light that a get-rich-quick operator, Lundstrom succeeded in fleecing a number of Sweden's best-known persons out of approximately 30,000,000 crowns. He operated in wool, linen and shellac.

Many became attracted by his offers of 6 percent dividends per month, to be increased later to 12, and among them was Lieut. Erik Swartz, son of the Swedish prime minister, whose losses are placed at 1,000,000 crowns. Ten others lost from one to ten million crowns; twenty-two had losses from fifty to eighty thousand crowns, and many professional men, bank employees, and others lost trifling sums up to thirty thousand crowns.

The Social Side of Hygiene

Society as a rule is generally careful about the state of its health, and it is apt to make good use of remedies known as disease preventives. Germicides and antiseptics are included in this class, but the greatest care should be exercised in using any such contains poisons, unless prescribed by a physician.

By reason of its absolute safety and its beneficial results, physicians have strongly recommended Tyree's Antiseptic Powder. This preparation appears to occupy a unique position as a toilet and hygienic antiseptic and is being most favorably commented upon by society, both in the States and abroad. The late Prof. W. M. Gray, pathologist to Providence Hospital and microscopist to the Army Medical Museum, in discussing the merits of this preparation, said: "From the above and other experience with Tyree's Antiseptic Powder, I conclude that it is a most valuable and useful compound, and that its efficiency must be due to its peculiar mode of manufacture and its well balanced chemical adjustment as well as the exceptional purity of its ingredients." It is sold in packages at 5c, 10c and 25c and is manufactured by J. S. Tyree, Chemist, Inc., Washington, D. C.

BRITISH MARVEL AT STANCH PHYSIQUE OF U. S. SOLDIERS

LONDON, Sept. 28.—The American soldier is a new type to the English and they are still marveling over the "race" that their former colony is producing.

The appearance of one of Pershing's men is always the signal for craning of necks and interested comment. Here are some of the things the London newspapers are saying about that strange breed, the American soldier. "Men of the typical American physique; stanch, hefty, clear cut, built for pace and power alike."

"Nearly all of them had the brown, keen-eyed faces of open-air men. They walk with easy, careless vigor. In the West the human unit is a man and a horse and they are never quite reconciled to walking."

"These Westerners are numerous; they look far ahead, across unseen horizons. They don't march—rather they saunter."

"Many of them come straight from the West and wear pistols swinging handsily at their hips," says a reporter who has evidently gained his impression of Westerners from American Wild West shows.

TREASURY TO TAKE BLOCK FACING AVENUE

Will Use All But Poli's for Extra Office Room.

The Treasury Department announced today that the block of buildings bounded by Pennsylvania avenue, E street, Fourteenth street and Fifteenth street northwest, will be remodeled for extra Treasury office room, as soon as funds for the work are appropriated.

The Senate Committee on Appropriations has recommended an appropriation of \$1,000,000 to be used to remodel the buildings, with the exception of Poli's Theater.

The Senate committee also recommended an appropriation of \$85,000 for the remodeling of buildings for the same purpose in the square bounded by New Jersey avenue, First street, B street and C street northwest. The Maltby building, at New Jersey avenue and B street northwest, will be remodeled to care for the overflow from various departments.

TIVERNY HELD AS THIEF.

George Tiverny, twenty-nine, of 605 H street northwest, who was held by the police, co-operating with Department of Justice officials, pending the investigation of the finding of a quantity of dynamite a mile from the Washington conduit at Great Falls, Md., was returned to Rockville last night by Sheriff Galtier of Montgomery county to answer a charge of larceny of the explosive from a mining company.

ROOSEVELT FORCED KAISER TO PARLEY OVER VENEZUELA

CHICAGO, Sept. 28.—Colonel Roosevelt, at a luncheon here related for the first time his story of how near the United States came to getting into war with Germany in 1902, and how his mailed fist threat caused Germany to arbitrate the question relating to occupancy of Venezuela.

He charged that Germany was striving to extend her dominion and that Venezuela offered an opportunity. When a fleet of German warships appeared near that country, Colonel Roosevelt, then President, sent for the German ambassador and demanded what Germany meant by "temporary possession."

"Tell your government that in ten days it must arbitrate the matter or I will send Dewey down there," "I cannot send such a message, Mr. President. I do not think you realize what it means," the ambassador replied.

"You think it means war?" I asked. "I do not want to say what I think," was the reply.

"If it means war, you have chosen the one spot where you can not fight us," I replied, and then I showed by maps our commanding position."

When the ambassador retired, Colonel Roosevelt says he sent word to Admiral Dewey to be ready to sail on an hour's notice. A week later the ambassador returned, he says, saying that he had not dared send the message.

The Colonel then issued an ultimatum saying he would give Germany forty-eight hours in which to agree to arbitration. Thirty-six hours later the ambassador returned saying he had received instructions from his government that it would arbitrate.

ROOSEVELT CALLS LA FOLLETTE ONE OF HUNS IN THE SENATE

RACINE, Wis., Sept. 28.—Branding Senator Robert M. La Follette as one of the "Huns within our gates," Colonel Roosevelt began a series of addresses by appearing before the League of Wisconsin Municipalities. He was introduced by Governor Phillips.

"I have the word of your governor, a true American, that the attitude of Senator La Follette does not represent the real sentiment of Wisconsin toward war," said the Colonel, in his arraignment of the Senator.

"Those who demand peace without victory for the right," he declared, "are endeavoring to weaken and embarrass the United States in this war. This is treason."

The league adopted resolutions demanding that Senator La Follette be expelled from the United States Senate.

Later in the day Colonel Roosevelt addressed 12,000 seamen recruits at the Great Lakes Naval Training Station, and declared:

"I like to think that those in the United States who are not women are men. Only a little while ago it seemed we would have to divide the male sex into men and human rabbits."

EXPLO LA FOLLETTE AND SHORTEN THE WAR, BUTLER TELLS BANKERS

ATLANTIC CITY, N. J., Sept. 28.—"No single act would go so far to shorten the war" as the expulsion of Senator La Follette from the United States Senate, declared Dr. Nicholas Murray Butler, in an address before the American Bankers' Association here yesterday.

His stinging rebuke of the Wisconsin Senator was greeted by cheers from the bankers in attendance from all sections of the country.

Lord Northcliffe, the English publisher, warned the American financiers against "dreams of a speedy peace." He urged wholehearted support of Secretary McAdoo in raising funds with which to finance America's end of the struggle.

SUES D. C. FOR \$25,000.

The District of Columbia is named defendant in a suit for \$25,000 damages, filed in the District Supreme Court today by Dollie Marks, for alleged permanent injuries sustained January 13, last, when she stepped into a hole in the sidewalk on Seventh street northwest, near B. Her left leg was broken, she states, and she was rendered permanently lame. Attorneys Dan Thew Wright and Peyton Gordon are counsel for the plaintiff.

SCULPTOR BROOKS DECLARES CAPITAL LACKS ART SENSE

Washington has not yet acquired an art personality, according to Richard E. Brooks, a sculptor, of 1310 Massachusetts avenue, who at present is engaged on the Jefferson statue for the Government, and who is preparing to pack up his studio effects and remove them to Boston, the American Athens.

Mr. Brooks, whose sculptures are acknowledged everywhere as among the best products of American art, said today that it is to be regretted that Washington offers little, if any, inducement to artists to select it as a permanent residence.

"I can't account for it," said Mr. Brooks, "but art does not thrive in Washington. It may be due to too much politics or to the indifference of the people to things artistic. It is a fact that I have not received one single commission worth mentioning since my return to Washington from France about a year ago."

"Washington ought to be the art center of the United States, and Congress should make every effort to assist in this aim. When it is considered that a city which can boast the most attractive buildings from an artistic standpoint, and streets and monuments and galleries, attracts desirable residents, it would be a splendid investment to educate and build up the art sense of the people in Washington and the members of Congress."

LABOR SUPPLY BELOW DEMAND ON AGENCIES

Even Police Court Shows Few in Need of Work.

There should be no applicants for charity among men who are strong enough to work, and there seems to be no reason why able-bodied men should be out of a job, judging from the great demand for laborers with which the local employment agencies are inundated and are unable to entirely satisfy.

Comparative absence of minor offenses committed by men who used to plead that they "could get no work and were compelled to steal in order to live," is noticeable at the daily sessions of the Police Court.

Industrial concerns and employment agencies are advertising for railroad laborers, car repairmen, freight handlers, boiler makers, machinists, carpenters, and laborers of every description. Railroad telegraphers and men familiar with railroad block signal systems are wanted and the various branches of the Government, especially the newly organized divisions, are in need of stenographers and messengers.

COLORED CHURCH PLANS 30-DAY REVIVAL DRIVE

Plans for a thirty days' revival meeting to be held at the Cosmopolitan Baptist church, colored, commencing Sunday, October 7, under the auspices of the National Evangelistic Ministers' Alliance of America, have been completed. The Rev. Dr. Simon P. W. Drew was elected chairman of the committee on arrangements, and Dr. George W. Thomas, secretary.

The Rev. Dr. O. S. Simms, of Pittsburgh, pastor of one of the largest colored churches in the United States, has been secured to do the evangelistic work. The women's department will be conducted by Mrs. Matilda Gordon, of the Metropolitan Baptist Church.

D. C. School Girls To Exchange Notes With French Girls

Commissioner Brownlow made plans today to turn over to the District school authorities a number of letters written and sent by girls in the French primary schools to American girl students, conveying sentiments of affection and gratitude for America for entering the war.

These letters were received through Ambassador Sharp at Paris, and already a number of these letters have been turned over to the Commissioner for distribution to Washington school girls. Girls studying French will receive the letters, and the answers will be written in English and sent back to France.

RICH FARMER SEEKS WIFE LOST IN CHICAGO

CHICAGO, Sept. 28.—Chief of Detectives Mooney has been asked to assign detectives to search for Mrs. Lena Casper, wife of a well-to-do farmer of Union, Neb., who vanished two weeks ago.

With several hundred dollars, and wearing considerable jewelry, she left her home September 8 to go to Burlington, according to her husband, Brian, who arrived in Chicago with their daughter, Anna.

The woman was traced to Chicago, but disappeared here.

AMBULANCE CORPS WOMEN SET HOURS TO DON UNIFORMS

Woman ambulance drivers of the Woman's Volunteer Aid of the District Red Cross, will not be required to wear their uniforms from 10 a. m. to 6 p. m., despite the effort of a group of women in the organization to have a rule of this kind adopted.

Mrs. Floyd P. Waggaman, major of the ambulance corps, today announced this outcome of the fight that occurred within the organization during the week and which resulted in the rejection of the idea at a special meeting of the Aid.

"Mrs. Harriman and myself, with a number of other members," said Mrs. Waggaman, today, "were very anxious to have the members adopt a rule which would require members to wear their uniforms during working hours, or after working hours if they were on duty that long."

"The idea, however, met with some opposition and the organization decided against it. We believed that the wearing of our uniform during working hours was in line with the rule adopted by the army, navy, and marine corps, but many of the members objected."
